

**Common Teaching Unit plan
(structure and contents)**

"Apps4EL – Mobile Applications for Effective Learning"
Erasmus+ KA2 Project number: 2016-1-DE03-KA219-

Name of school	Parkschule Stadtbergen
Theme of the lesson	Creating a presentation
Pupils' age range	12 - 16
Timeline	Implementation of 1 lesson, 2-3 lessons work on presentation, time to present
Objectives	<ol style="list-style-type: none"> 1. Researching informations about a certain theme 2. Summing up informations for use in presentation 3. Creating a senseful presentation 4. Using a cloud for saving informations
methods	<ul style="list-style-type: none"> • Introducing how to make a presentation • creating a table of content • how to use searching machines in the internet • summing up informations out of reports • basic conditions of a presentation • Research and work on the presentations • Uploading informations on a cloud (google drive) and opening for teachers • comments • Feedback from teachers through comments in the cloud. • Holding presentations in front of class
Materials Used Apps	<ol style="list-style-type: none"> Using all devices 2. We are using google G-Suite, including google drive as a cloud and google presenter for the presentation
Assessment	<p>Uploaded presentation on google drive First feedback through teacher Holding presentation in front of teacher</p>
Remarks	<ul style="list-style-type: none"> - Advantage of google presentation is, it will work on every device. There is no need of specific programs or versions. - Disadvantage of the cloud – you need internet. Alternate you can work with a harddisk or USB-Stick.
