Internal	Strengths (What makes it an advantage over other apps or other resources)	<ul style="list-style-type: none">- The students find it quite motivating to learn with this app and compare their results.- It can be used to test students on their geographical knowledge. Highly recommended for ADHD students (Attention Deficit Hyperactivity Disorder).- There is also a website that can be used in the same way as the app.- There is a free version containing advertisements and a very cheap version without any adds.- You may open a wifi session for those students who can't download the app. <p>-Once you install the app, there is no need of the internet - connection.</p> <ul style="list-style-type: none">- It checks mistakes automatically.
	Weaknesses (What makes it a disadvantage relative to others)	<ul style="list-style-type: none">- Operating systems in mobile devices need to be updated to download the app.- There is no way to connect all mobile devices to the school wifi.

External	Opportunities (elements from the context/ environment that can be exploited to its advantage)	- Students may use their own phones or tablets.
	Threats (elements from the context/ environment that can create obstacles and difficulties to the use of that app)	-Some young students don't have a mobile device or access to the internet at home.
